PROFILE

I'm a junior Full-Stack Web Developer skilled in JavaScript (Node.js, React), PHP (Laravel), Git, and database management. I build responsive, user-friendly applications and have delivered projects like a real estate portfolio management CRM and real-time dashboard, applying best practices for code readability and maintainability. I would like to be a part of collaborative environments and am excited to contribute to scalable software solutions while continuing to learn on the job.

WORK EXPERIENCE

- Web Developer** 2025
Deniz Web Agency
 - Developed and maintained both frontend and backend sides of the websites in the portfolio
 - Implemented SEO strategies and improved code & content structures of the websites in order to enhance visibility
